Free Resistor

Product Description

You will receive 100 pcs 5mm RGB LEDs.

Free to provide 300 pcs resistors for 5V DC and 300 pcs resistors for 12V DC.

The Light Emitting Diodes (LEDs) are so small and won't "junk up" your vehicle or detract from its attractive look. Use your vehicles chrome, polished aluminum and paint to bounce and reflect light to provide illumination just where you want it. Its truly a Visual Effect!

LED only use milliamps of power (unlike neon that uses full amperage and drains your battery quickly) so they can be used as show lighting as well as safety lighting without running down your battery. You can leave them on all the time, and it will not drain your battery life.

Seven beautiful colors available: Red, Blue, Green, Purple, Yellow, Orange and White. They are fully waterproof, and have been tested for performance and durability in extreme heat, vibration, and are completely shatterproof.

Custom, and Show lighting packages are fully warranted for as long as you own your vehicle, or motorcycle. It can be used to accent automobile / motorcycle engine compartments, interiors, speakers, trunk space and to add awesome ground effects. It also can be used on boats to safely light up steps, walkways, gunwales, live wells, instrument panels, and living quarters. The possibilities are endless.

Combined Shipping

The shipment charge discount is only applicable to situations in which buyers ordered more than 1 product and wished to have all products delivered once for all. Normally, the discount provided would be 10-30% off based on the total sum of shipment charge of every single product purchased. So if you accept, please contact us before paying. We will send you an invoice with detailed products list and discounted shipment charge.

If the total value of the order, which includes the item value and shipping cost, is no less than \$25, the shipment via airmail will be registered for free; if the total value is less than \$25, you should pay us \$1.5 as register fee if you want to apply register service.

We will send you a notification email within two business days after the order is shipped out. For registered airmail, EMS and TNT express, the reference number and status could be found on our website: <http://www.sure-electronics.net> You could input the receiver name to enquiry.

If you are in United States, Canada, Russia and Brazil, you could also track the package status on the website of the post office of your country's own after the package arrives at your country.

Delivery Date

Normally package delivery by post system airmail to United States, Canada and most of the countries in EU and Asia may take 1-3 weeks. It takes about 30 days to countries and territories like India, Mexico, South America and Africa. However, the post office service of countries where buyers are situated may have an impact on actual delivery date. According to our experience, the post office service of Italy often takes longer than it normally would take. Therefore, buyers from Italy need to be more patient.

It may take 3-7 working days for package delivery to most of the countries in the world by EMS or TNT express.

If it is encountered with national holidays like New Year's Day, Christmas, Easter day, etc during shipment, the delivery date might be postponed.

Thanks for your understanding.

SHIPPING NOTE

Item/s will be shipped to your eBay profile address.

Therefore please ensure that the 'shipping address' on your eBay profile is correct.

We are not responsible for the delay or package lost if the registered address is incorrect.
